

CASE STUDY

Pentagon Assurance Ltd were asked by their Client Rovco to Provide Project Management and Health and Safety services for mobilisation and undertaking of subsea surveys on the wave hub tidal generator project using ground-breaking 3D visualisation technology. This included the preparation of all project documentation, risk assessments and method statements and the facilitation of a Hazop workshop with the end client. The successful delivery of this project supported Rovco's continued development of their technologies and the development of an asset care plan for the wave hub programme.

Location:
Bristol

Sector:

- Subsea
- Energy

What our client said:

Engaging Pentagon is the best decision we ever made and we couldn't have done this without you, you can use that as a testimonial!
