

# Emergency First Aid - Refresher

This online training course has been designed to refresh the users knowledge about the role of an emergency first-aider and their responsibilities. It is suitable for all levels of employees working in any industry.

The course aims to remind the user of their first aid duties in between their practical training. It will refresh their knowledge on how to assess a situation and circumstances to act safely & effectively in an emergency and how to administer CPR and use an AED.

## COURSE CONTENTS

The course covers the following elements:

- The Primary Survey
- The Secondary Survey
- First Aid Treatment
