

# Environmental Awareness

This online, CPD Accredited & IOSH Approved training course is designed to introduce staff and management at all levels to the issue of environmental responsibility, as well as looking at what can be done to reduce negative environmental impact from our day-to-day activities.

We all know that our environment is under threat and that changes must be made to protect it. In this Environmental Awareness training programme, we make it clear that it's not just big companies that have a responsibility to make changes - or indeed companies that deal with hazardous materials or waste disposal - it's something that concerns absolutely all of us.

This programme looks at the problems our environment is facing. It looks at our responsibilities and wider environmental awareness, as well as covering the various legislation that relates to environmental responsibility for organisations of all types and sizes.

## COURSE CONTENTS

The course covers the following three elements:

- Global change
- How workplaces are affecting the environment
- How individuals can improve their carbon footprint

SHAPING THE WAY BUSINESSES OPERATE

# WHAT RESULTS CAN I EXPECT?

By the end of this course learners will:

- Learn how you can reduce your impact on the environment as an individual
- Fully understand the impact that workplaces have on the environment
- Have a better understanding of climate change, human impact, and finding the right balance

# WHO SHOULD TAKE THIS COURSE?

This Environmental Awareness Training Course is for everyone. It looks at the problems faced by our environment and addresses our responsibilities in the workplace to help reduce negative environmental impact. Show commitment to The Environmental Protection Act 1990 and the Environment Act 1995 with our CPD Accredited and IOSH Approved training.
