

# Fire Safety Awareness

Awareness is the key to prevention.

Everyone at work has a duty to prevent fires. A fire safety culture is based on a shared set of positive attitudes, knowledge, perceptions and beliefs about fire prevention and fire protection.

This course helps provide a basis for developing a culture of fire safety and prevention among the workforce.

The course avoids the use of off-putting legal language. Instead, the jargon-free content is based on what people need to know in practice.

Fire Safety Awareness is for people at any level, in any sector worldwide, who need a grounding in the essentials of fire safety
