

Risk Assessment Training

This Risk Assessment training course is designed to help businesses comply with the Management of Health and Safety Regulations 1999 by explaining how to complete a suitable and sufficient workplace risk assessment. Risk assessments are a legal requirement for all types of workplaces.

The course helps you to understand each of the key steps of a risk assessment, including how to identify risks, manage hazards and determine the likelihood of harm, so that you are confident in carrying out a risk assessment in your own premises.

COURSE CONTENTS

The course covers the following six elements:

- Introduction to Risk Assessment
- Legal Responsibilities
- Carrying Out Effective Risk Assessments
- The Hierarchy of Control
- Regularly Reviewing Risk Assessments
- COVID-19 Risk Assessment

WHAT RESULTS CAN I EXPECT?

By the end of this course learners will:

- Understand their legal responsibilities under the Provision and Use of Work Equipment Regulations 1998.
- Have awareness of how to undertake a risk assessment of the work premises.
- Have knowledge of the control measures needed to ensure health and safety and manage the hazards created by the use of work equipment.
- Understand the importance of careful equipment selection, safe working practices, equipment maintenance, inspection and testing and emergency procedures.

WHO SHOULD TAKE THIS COURSE?

This online risk assessment training is suitable for anyone who has responsibility for carrying out a risk assessment of their workplace. The person who carries out the risk assessment is named the 'competent person' and this can be the business owner, a manager, a supervisor or anyone else within the business who has sufficient training, skills, experience and knowledge to be able to carry out the risk assessment process safely and effectively.

This Risk Assessment course is suitable for all industries, workplace environments and premises and ensures that your company complies with the Management of Health and Safety Regulations 1999.
