

Slips, Trips & Falls Prevention

This Slips, Trips and Falls training course shows how to control the slip, trip and fall risks in your workplace so that you can protect yourself from accidents and comply with your workplace's health and safety requirements.

Slips, trips and falls are the most common hazards in workplaces of all kinds, contributing to over 10,000 serious injuries each year. This training course will help you understand where these hazards originate, how to prevent them from causing harm, and how to carry out your work activities safely.

COURSE CONTENTS

The course covers the following four elements:

- Introduction to Slips, Trips and Falls
- Risk Assessment
- Preventing Slips and Trips
- Preventing Falls

WHAT RESULTS CAN I EXPECT?

By the end of this course learners will:

- Have an awareness of slip, trip and fall hazards and how they may develop in the workplace.
- Recognise what the law requires of employers and employees.
- Understand what's involved in a risk assessment of the workplace and be able to identify slip, trip and fall hazards.
- Know how to prevent slips, trips and falls by following appropriate safety measures.

WHO SHOULD TAKE THIS COURSE?

This Slips, Trips and Falls course is designed for workers at all levels and in all types of businesses. Slips, trips and falls can happen in any industry, including catering premises, warehouses and residential homes, and training is important in order to manage the risks to health and safety.
